

## Installing Medical Graphic User Interface (GUI) on your computer

Next steps must be followed in order to install the Medical GUI on your computer.

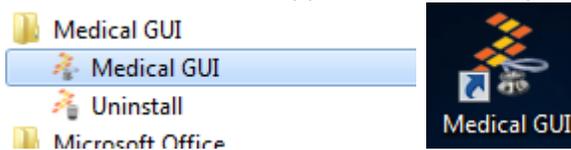

1. Download and install the latest version of Java JDK on your computer. Latest version of Java JDK can be downloaded from Oracle® Web Page. Make sure to install the Java version that corresponds to your operating system (32 bits or 64 bits)

2. Execute “medical\_gui\_setup\_x32” for Windows® 32-bits version or “medical\_gui\_setup\_x64” for 64-bits version. Follow the installer instructions.

Once the installation has finished, a shortcut will appear in the Desktop and Programs Menu.

Freescale is not obligated to provide any support, upgrades or new releases of the Software. Freescale may make changes to the Software at any time, without any obligation to notify or provide updated versions of the Software to you. Freescale expressly disclaims any warranty for the Software. The Software is provided as is, without warranty of any kind, either express or implied, including, without limitation, the implied warranties of merchantability, fitness for a particular purpose, or non-infringement. You assume the entire risk arising out of the use or performance of the Software, or any systems you design using the software (if any). Nothing may be construed as a warranty or representation by Freescale that the Software or any derivative work developed with or incorporating the Software will be free from infringement of the intellectual property rights of third parties. In no event will Freescale be liable, whether in contract, tort, or otherwise, for any incidental, special, indirect, consequential or punitive damages, including, but not limited to, damages for any loss of use, loss of time, inconvenience, commercial loss, or lost profits, savings, or revenues to the full extent such may be disclaimed by law. The Software is not fault tolerant and is not designed, manufactured or intended by Freescale for incorporation into products intended for use or resale in on-line control equipment in hazardous, dangerous to life or potentially life-threatening environments requiring fail-safe performance, such as in the operation of nuclear facilities, aircraft navigation or communication systems, air traffic control, direct life support machines or weapons systems, in which the failure of products could lead directly to death, personal injury or severe physical or environmental damage (High Risk Activities). You specifically represent and warrant that you will not use the Software or any derivative work of the Software for High Risk Activities.
