

\* \* About the delay time from asserting of a HRESET\_REQ signal to HRESET\_B asserting \* \*

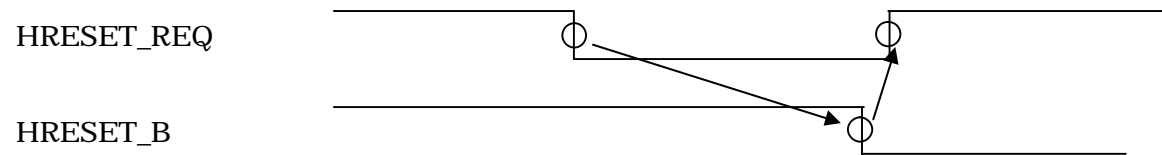

< . When P1010 reboots and it does not start normally >

When a HRESET\_B signal was asserted immediately after CPU asserts a HRESET\_REQ signal, CPU did not start normally.

In this case, the delay time of asserting of RES\_REQ to HRESET is 2 ~ 3 ns.

< . When P1010 reboots and it starts normally >

When it delayed asserting a HRESET\_B signal after the HRESET\_REQ signal was asserted, it started normally.
