# MIFARE BEYOND TICKETING

## CONTACTLESS SOLUTIONS FOR SMART CITIES

MARTIN LIEBL  
DIRECTOR PRODUCT MANAGEMENT  
FTF-CIT-N1924  
MAY 17, 2016

PUBLIC USE

# AGENDA

- Smart Mobility – overview & products
- Smart Mobility - global trends & market figures
- Mass Transit e-Fare collection
- NFC tags – city & transport info
- Bike sharing
- Car sharing
- Parking
- AVI
- Mobile solutions

# SMART MOBILITY – OVERVIEW & PRODUCTS

Smart Mobility

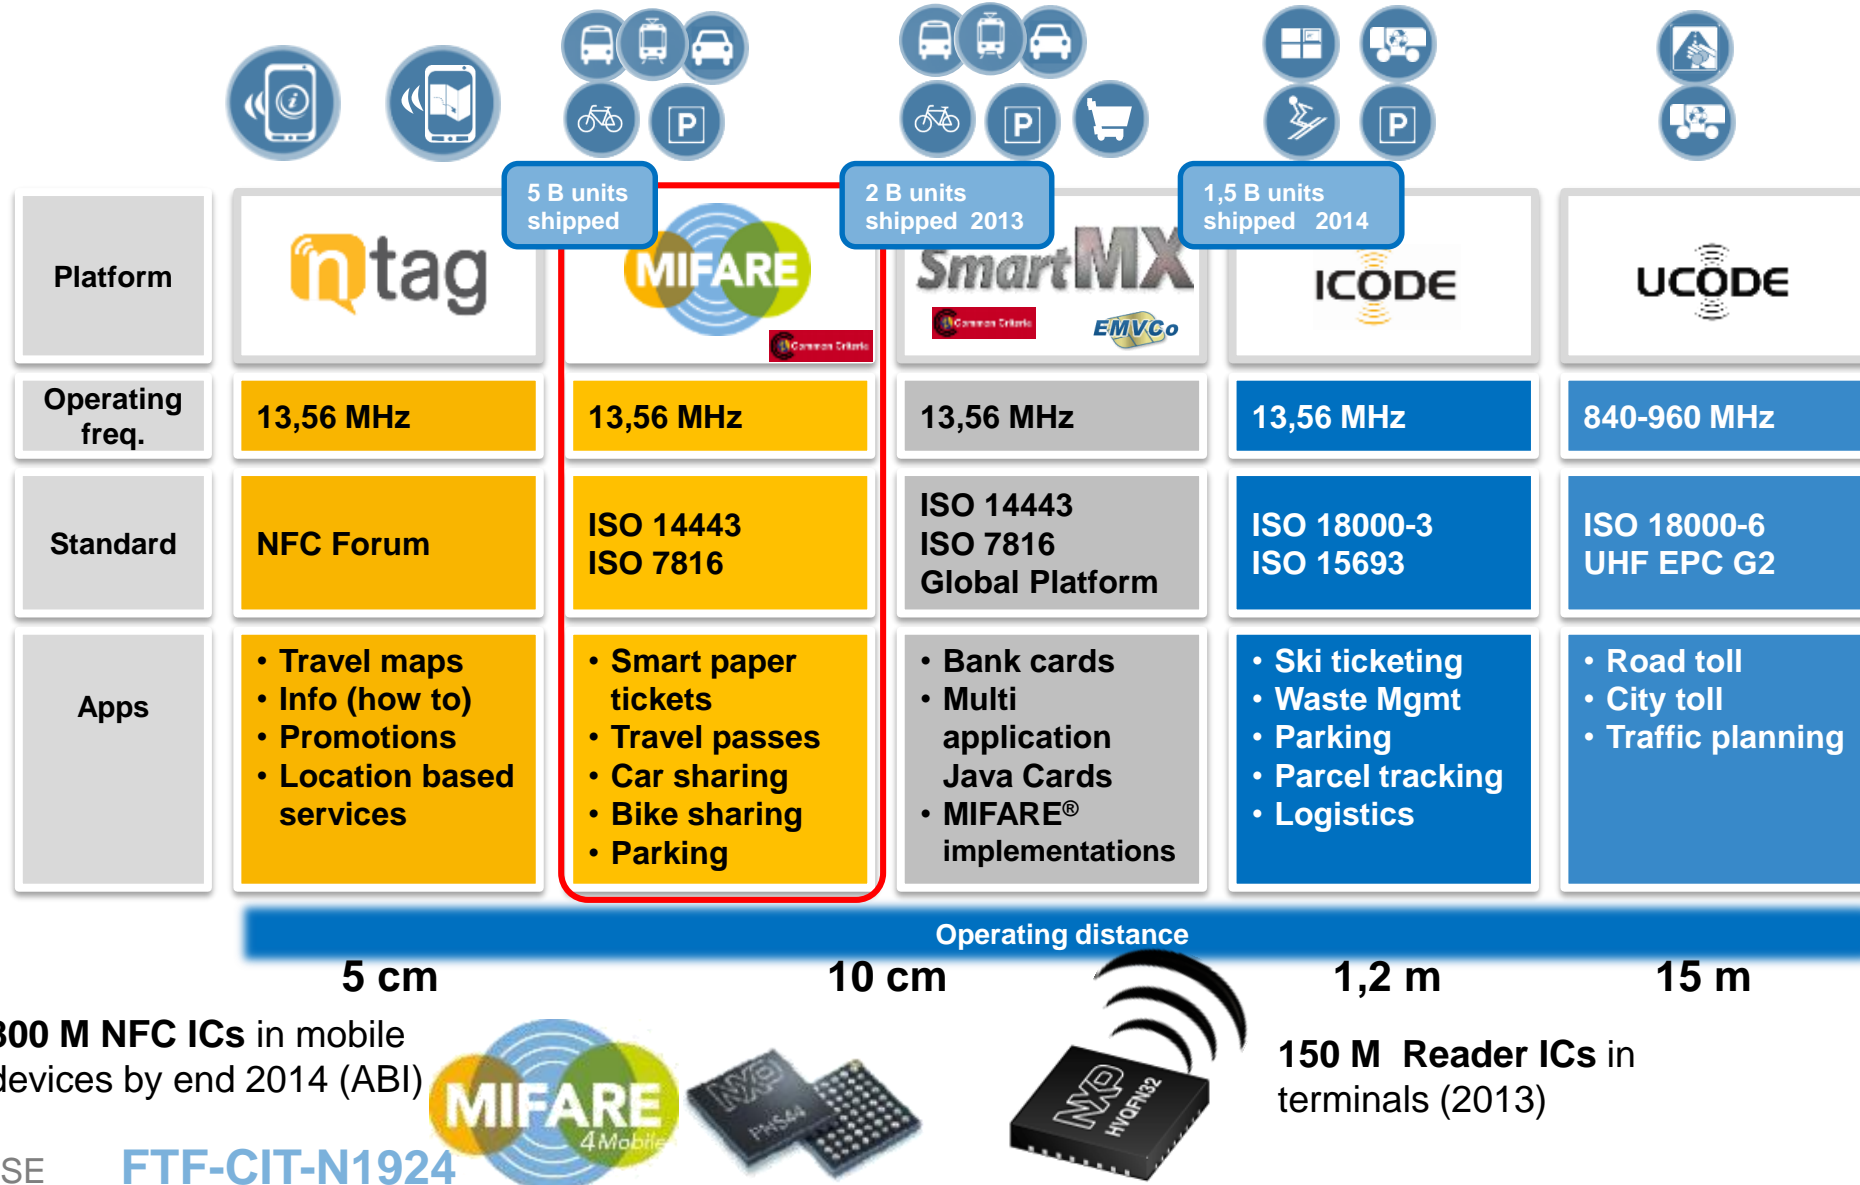

# Commuters lose 1 week lifetime per year in traffic congestions (compared to 1980)

- 4 B people in cities today
- 7- 20 B people in cities by 2050
- Smart Cities will compete for growth
  - Attract talents, economic growth, tax income
- Smart Cities are defined around 6 axis:
  - Infrastructure, **Mobility**  solve CO<sub>2</sub> & efficiency

# NXP's Contribution to a Smarter Mobility

# Smart Mobility – NXP's Track Record

- **14 M trips a day in London** accelerated and secured in by NXP technology
- **2 out of 3 Dual IF bank cards** rely on NXP technology enabling convergence with MIFARE® based applications
- **150 M terminals WW** for all kinds of c'less applications rely on NXP's RF-technology
- **800 M NFC** enabled mobile devices will be powered by NXP technology end of 2014 enabling smart mobility on mobile devices
- **16 cities commercial on mobile ticketing** with MIFARE by end of 2013
- **SW Development Kits** to accelerate the creation of apps

# MIFARE – the #1 Choice for e-Ticketing & Mobility Solutions

**77% MIFARE product market share**  
successfully maintained in 2014\*

## Within the 77% of market share

- NXP CPU +16% growth by fast acceleration to (MIFARE DESFire / MIFARE Plus)
- NXP CPU +6% increase in market share on (MIFARE DESFire / MIFARE Plus)
- Nearest competitor CPU -7% in market share
- NXP memories 50% market share above nearest competitor

\*ABI 2014: NXP continues its leading market share position with a combined memory and microcontroller share of more than 70%  
In 2014, ABI did not count smart paper tickets (ABI 2013 considered smart paper tickets which resulted in a combined market share of 77%)  
Inclusion of the smart paper ticketing market results in a maintained 77% market share of MIFARE products

# Smart Mobility – NXP's Vision

**Clean** and **green** Smart Cities facilitating **efficient** and **[safe]** mobility for individuals and goods.

Maximizing **productivity** and **recreation** time for commuters between home, work, education and leisure.

# SMART MOBILITY – GLOBAL TRENDS & MARKET FIGURES

# Trends in Smart Mobility – Worldwide

- Mass transit ticketing migrating to higher security (MIFARE Plus, MIFARE DESFire)
- Passenger information going mobile (w/wo NFC)
- Strong interest in ticket loading / top up via NFC mobile devices
- Backend centric systems
  - acceptance of EMV cards
  - account based
  - side tokens on BYOD
- Bike sharing, car sharing & parking integrated with transit cards
  - Troika (RUS), Stuttcard (GER), Urbana(SLO)
- Traffic management – passenger flow in ungated systems
  - HF & UHF combo
- AVI going towards passive UHF technology with security
  - number plate authenticity, road tolling, parking

# Secure...Mobility

1,2 B people rely on NXP's  
MIFARE products daily  
in 736 cities  
in more than 70 countries  
up to 14 M transactions / city / day

# Connected..Mobility

150 M Reader ICs  
800 M NFC mobile by 2014  
400k Developers via MIFARE SDK

# MASS TRANSIT E-FARE COLLECTION

# MIFARE Products Securing Transactions Day by Day

## 33 M/Day in 10 Cities – 250 M/Day Worldwide

Installation	# transactions	Product securing transactions
TFL – London	14 M / day	MIFARE DESFire
Sao Paulo	5 M / day	MIFARE Plus
Delhi Metro	4 M / day	MIFARE DESFire
Troika – Moscow	3,5 M / day	MIFARE Plus
Touch & Go – Kuala Lumpur	3 M / day	MIFARE Plus
NOL – Dubai	1,5 M / day	MIFARE DESFire
Myki – Melbourne	1 M / day	MIFARE DESFire
Clipper – San Francisco	0,7 M / day	MIFARE DESFire
Rabbit – Bangkok	0,6 M / day	MIFARE DESFire
Tap – Los Angeles	0,5 M / day	MIFARE Plus

**Based on an average 2\$ fare this would be equivalent to 500 M\$ /day!**

# MIFARE DESFire® – a Good Investment

## Field Proven

14 M transactions / day  
+60 mega cities

## Innovation

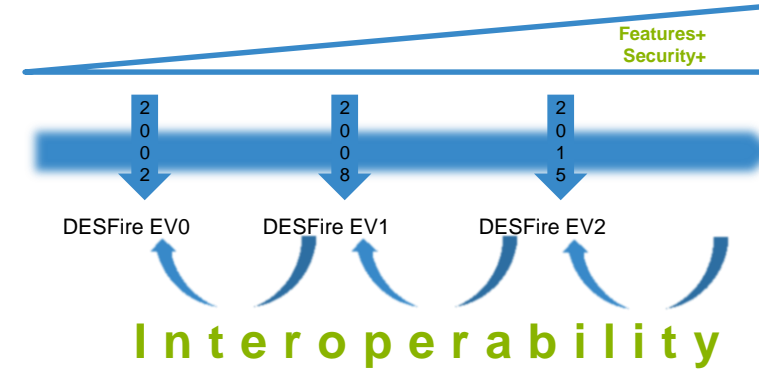

MIFARE DESFire EV2  
Ready to post install  
MIFARE Account®

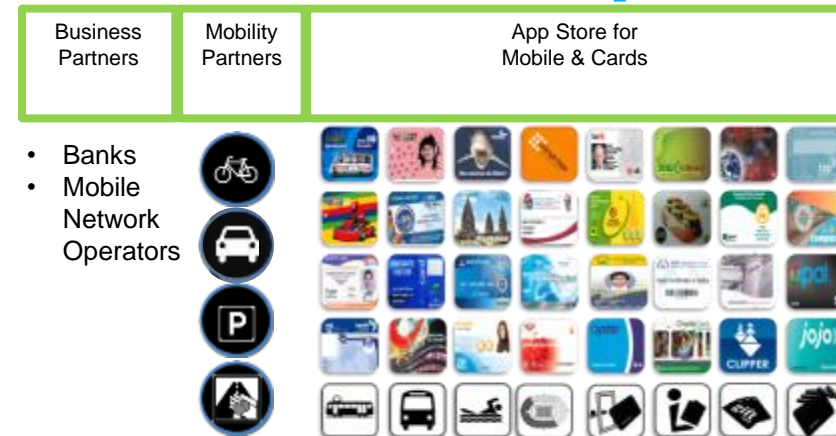

+400K App  
developers

## Sustainability

## Partnerships

# MIFARE PLUS – Your Security Insurance

## Field Proven

3,5 M transactions / day  
+12 mega cities

## Sustainability

## Partnerships

Business Partners	Mobility Partners	App Store for Mobile & Cards
<ul style="list-style-type: none"> <li>• Banks</li> <li>• Mobile Network Operators</li> </ul>		

## Security on demand

# NFC TAGS CITY & TRANSPORT INFO

# Barcelona – 8000 NFC Tags to Provide Visitors with Info

- France based NFC specialist  Connectthings
- Product NTAG213
- Placement
  - bike stations
  - hotels
  - hostels
  - tourist offices
  - tourist attractions

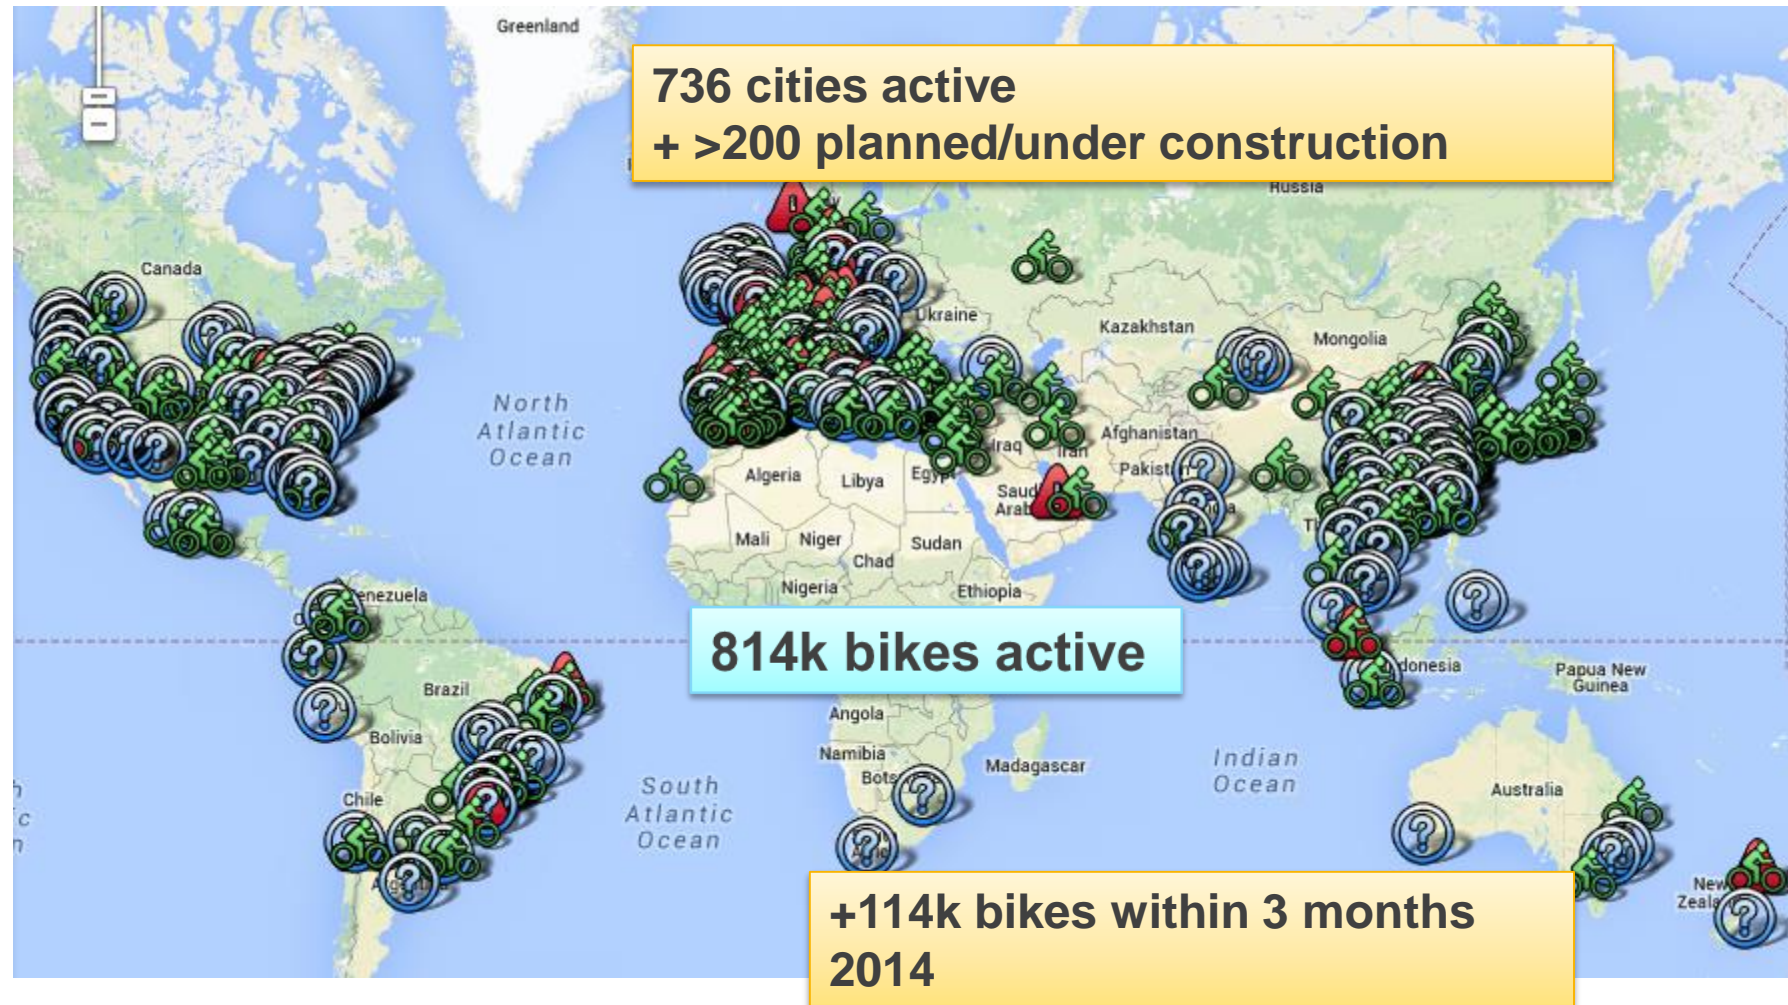

- 
- **solution:** tags, personalization, mobile platform – using phone browser special preferences tailored user individual (cookies)
  - **owner / sponsor:** Barcelona Town hall
  - **biz model:** yearly fixed fee + additional for inclusion of new services cost savings on passenger information, inc. customer traffic
  - **Information / content:** directly coming from owner / sponsor

# BIKE SHARING

# Bike Sharing – in Heavy Deployment

# Bikeparking Example Barcelona

- Bikebox service based on DESFire

# Strategy: Strong Connected Ecosystem

## Build up relationships

- MIFARE® as product of choice:
  - Leveraging from MIFARE ecosystem
  - Easy application design
  - Large existing infrastructure
  - Winning new customers
- Application note for bike sharing/car sharing
  - Get away from UID only use

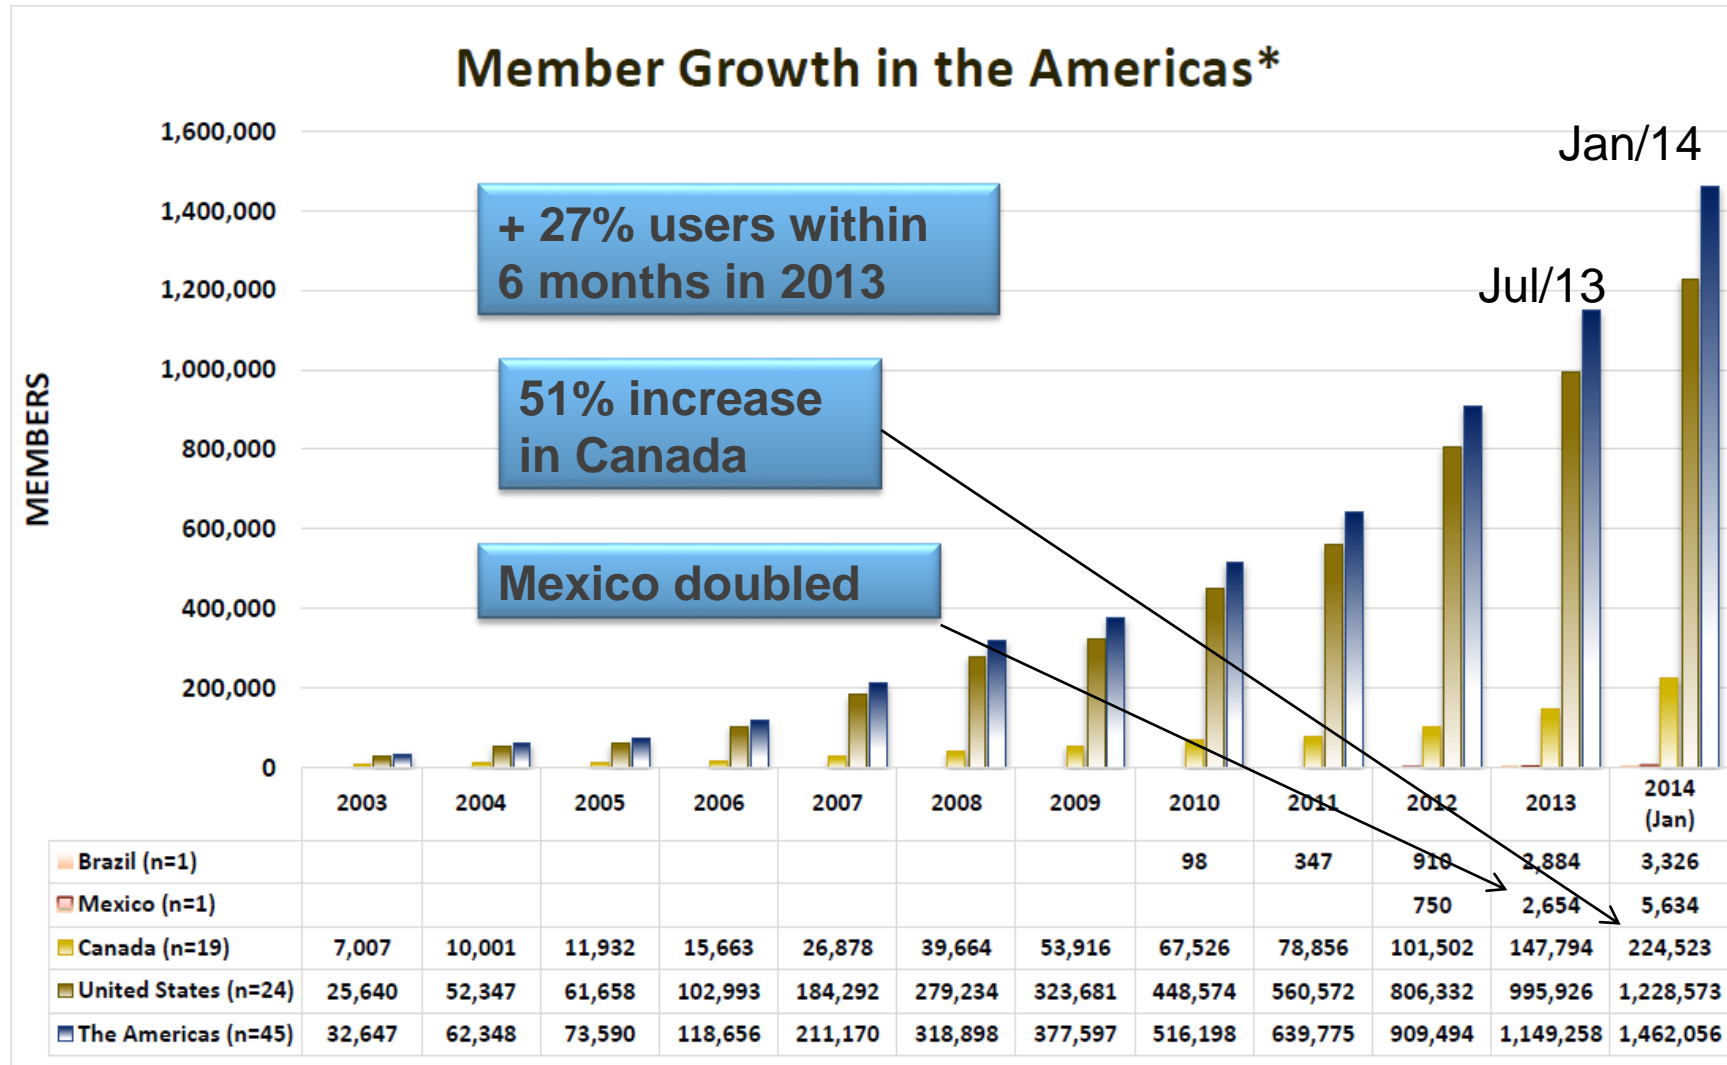

# CAR SHARING

# Development Users – Booming in Americas

## CARSHARING MARKET TRENDS IN THE AMERICAS

## How Does It Work?

# Introduction car2go

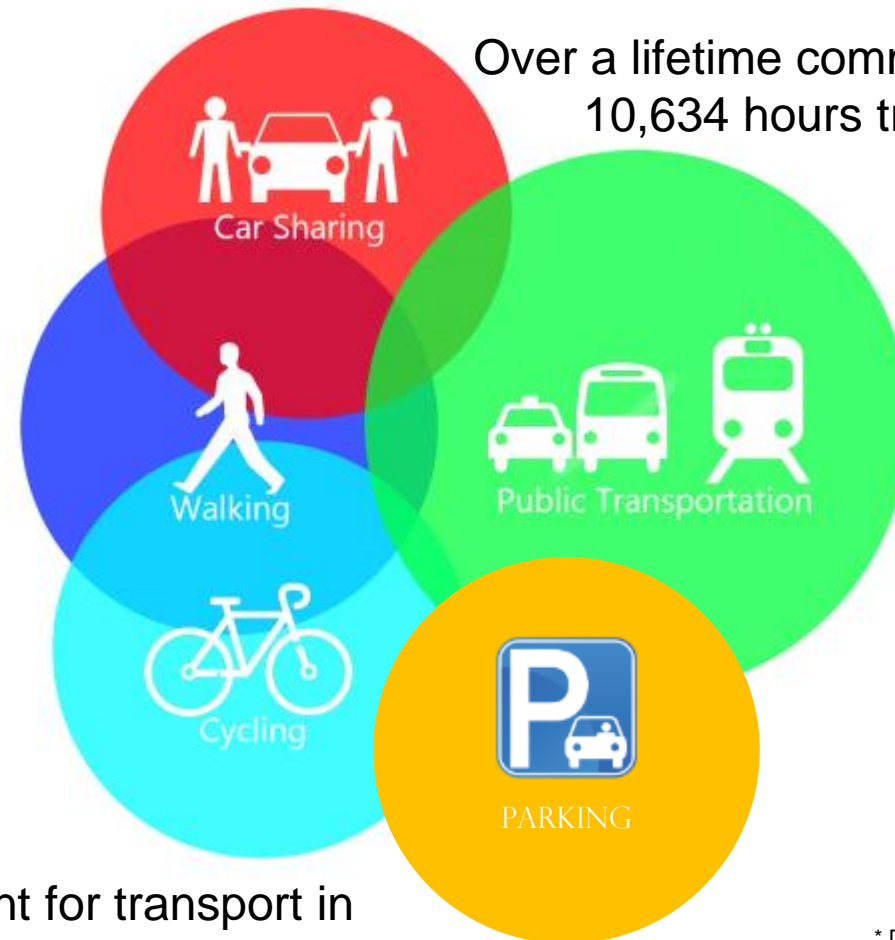

- Next to Zipcar biggest car sharer
- Founded by Daimler and Europcar
- Operating **in 25 cities in Europe and USA**
  - > **500k registered users**
  - > **9000 cars** incl. 1100 e-cars
- Membership card (DESFire) opens car
- Type in pin in board computer
- Drive
- Picked up & leave anywhere in town

# PARKING

# Smart Mobility: an Easy and Convenient Way from A to B

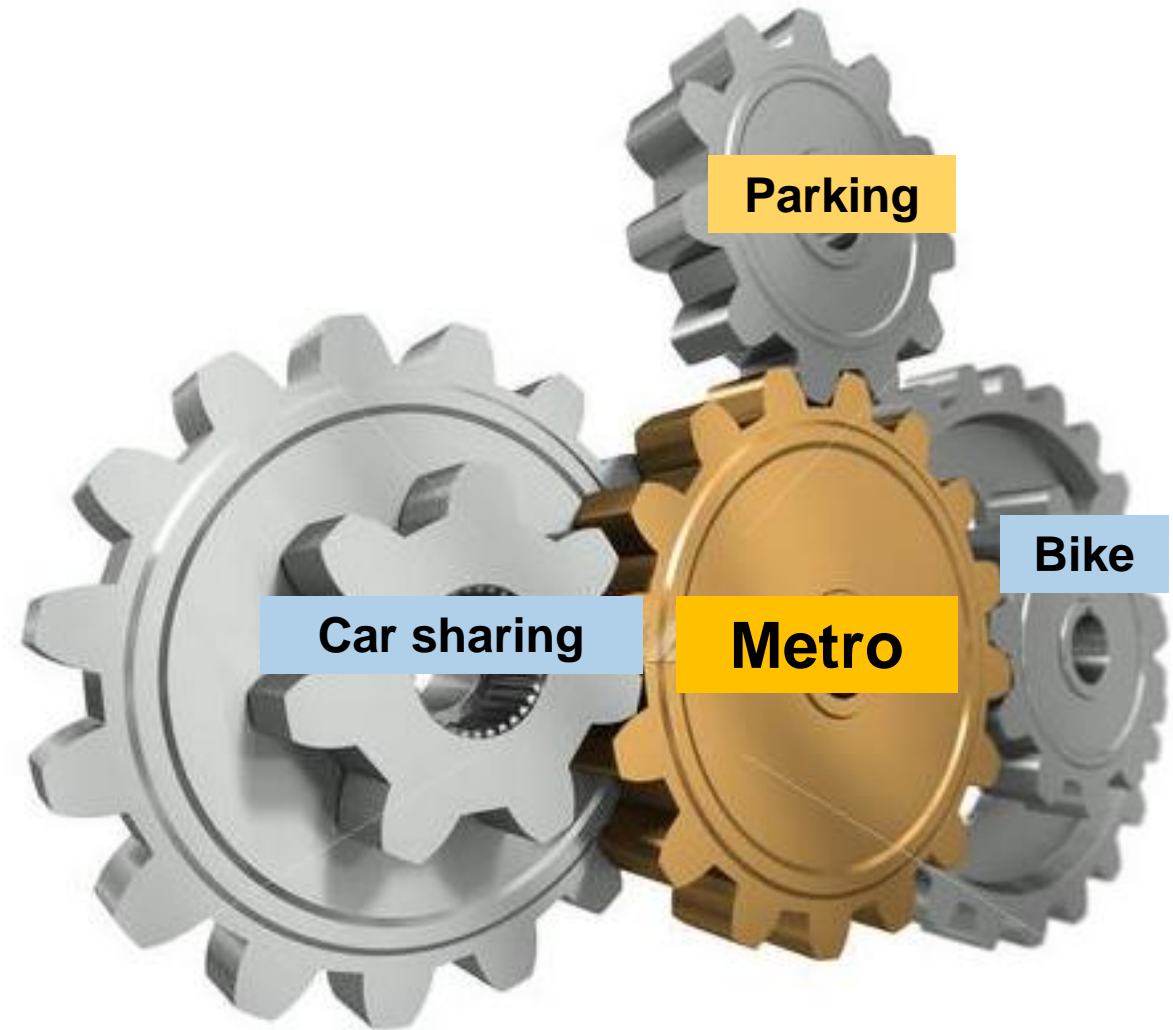

Over a lifetime commuters spend average 10,634 hours travelling to work\*

13% of income spent for transport in Europe (15% in USA)\*\*

\* Daily Mail  
\*\* Eurostat

# Why Are We Looking into Shared Services

- Leverage existing systems
- Increasing end user convenience
- Driving adoption

# Example Success Stories

- Parking facilities at Munich Airport are equipped with long range RFID (UHF) infrastructure for AVI (Automatic Vehicle Identification) based on NXP tag ICs
- The technology allows a quick and reliable detection of vehicles in the parking area
- The infrastructure is specifically used for the fleet solutions operators DriveNow, car2go and AlphaCity

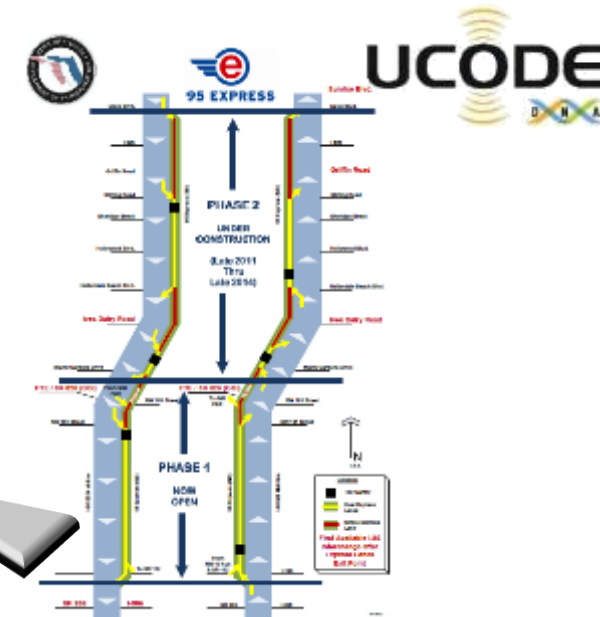

# AVI – AUTOMATIC VEHICLE DETECTION

# Long Range Secure – Increasing Traffic Efficiency

- H'way 95 express lane: travel speed +200% standard lane / +300% express lane
- UCODE DNA further improve detection rate, authenticity, privacy & BOM

# Long Range Secure – Protecting Road Users

United States, 2012

- Every 2 hours 1 pedestrian died in car accidents<sup>1)</sup>
- Every 7 minutes 1 pedestrian got injured<sup>1)</sup>
- Ages 65 contribute to 20% of overall deaths<sup>1)</sup>
- >20% children who died in 2012 where pedestrians<sup>1)</sup>
- UCODE DNA
  - Protecting vulnerable road users
  - Eliminating abuse
  - Maintain privacy
  - Lowest BOM
