Use Scenario

Main view after Log-In
Start by downloading and having a look at the user manual, for this click on
the '?' symbol

At first usage you maybe won't see any document. This is because the
approvals for content classes are still not granted. While requests gets
approved, you will see more and more items in the tree.

Requesting Docs

Browse the 'Product Hierarchy' tab to the doc you need
and click on it.

It will be added to the shopping cart
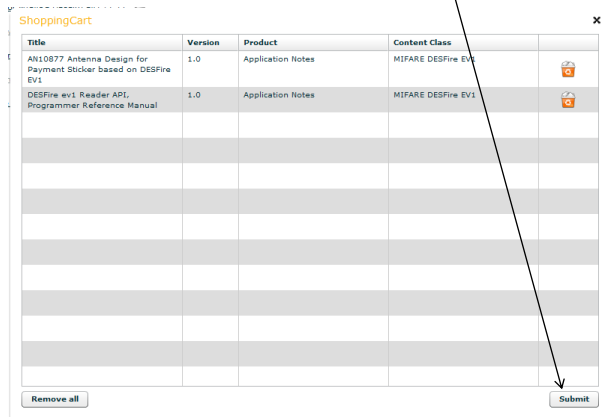

Requesting Docs

Go to the shopping cart ('view') and <u>submit</u> your request

The next steps to get your document

- ▸ Depending on the security level:
  – You may get direct access to the documents (can take a couple of minutes)
  – Or the product manager gets informed about your request, h will approve or reject the request. In both cases you get a notification e-mail

- ▸ In some cases (not more often than once a week), you can be asked to confirm your e-mail address before downloading the document. In such case you get an e-mail with an 'activation link' you have to click on.

- ▸ Then you can download the doc directly, as often as you want.

Requesting Docs

Under the 'My objects' tab you can see docs available for download.
   Just click on the arrow to get the pdf file
      Do not forget to check 'subscription' so that you get
      informed about new versions available

Title	Version	Doc. No.	Product	Content Class	Approved on		Download	Subscription
